

## #10 Yellow Wing Conical Anchor Kit w/ Hex Head Combo Drive Screws

Part Number 2AKHX  
Category Number 4610  
UPC 781002592037

The 2AKHX Kit is suitable for use in solid or hollow wall, concrete, block, or brick applications. When used in hollow walls, such as drywall or plywood, the wings will splay out to provide a more secure installation and higher pull-out load. The anchor has a lip to prevent falling into deep holes or hollow walls. For hard wall applications, use the size of the anchor to determine hole size for installation. For drywall or soft applications, it is recommended to use the smallest hole that will enable a tight fit for the anchor. These anchors are not recommended for use in overhead applications or where holding values are critical.
