

# Product Specifications

## 3/16" x 4-1/2" Carbide Tipped Hammer Drill Bit

Part Number CD3164  
Category Number 4570  
UPC 781002145080

Carbide Tipped Masonry Drill Bits are used in conjunction with concrete screws. They feature a flat shank that helps prevent bit slippage and hold tight tolerances that are critical to precision anchoring. They are suitable for masonry, brick, block and concrete.

### Physical Characteristics

Type	Hammer Drill
Shank Type	Tang Shank
Tip Style	Carbide
Size	3/16" x 4-1/2"
Shank Size	5/32"
Anchor Diameter	1/4"
Bit Diameter	3/16"
Overall Length	4-1/2"
Material	High Speed Steel
Finish	Black Oxide
Number of Flutes	1

### Packaging Details

Standard Qty	10
Price Per	1
Package Length	1.40
Package Width	.90
Package Height	.20
Net Weight	0.025
Package Weight	.25

### Performance Data

Applications	For Hex and Phillips Concrete Screws
Special Features	Carbide Tip, Close Tolerances, Tang Shank, Made Specifically for Installing Concrete Screws

### Certifications

RoHS Compliant	No
