

3/16" x 5-1/2" Carbide Tipped Hammer Drill Bit

Part Number CD3165
Category Number 4570
UPC 781002145103

Carbide Tipped Masonry Drill Bits are used in conjunction with concrete screws. They feature a flat shank that helps prevent bit slippage and hold tight tolerances that are critical to precision anchoring. They are suitable for masonry, brick, block and concrete.

Physical Characteristics

Type	Hammer Drill
Shank Type	Tang Shank
Tip Style	Carbide
Size	3/16" x 5-1/2"
Shank Size	5/32"
Anchor Diameter	1/4"
Bit Diameter	3/16"
Overall Length	5-1/2"
Material	High Speed Steel
Finish	Black Oxide
Number of Flutes	1

Packaging Details

Standard Qty	10
Price Per	1
Package Length	7.87
Package Width	2.99
Package Height	.00
Net Weight	0.005
Package Weight	.05

Performance Data

Applications	For Hex and Phillips Concrete Screws
Special Features	Carbide Tip, Close Tolerances, Tang Shank, Made Specifically for Installing Concrete Screws

Certifications

RoHS Compliant	No
