

8-Piece Master Electricians Hole Cutter Kit

Part Number CTK8
Category Number 6405
UPC 781002855590

The CTK8 is an assortment of seven Carbide Tipped Hole Cutters that are used to cut holes in mild steel, stainless steel, iron, copper and brass sheet metal. They are manufactured with a built-in drill flange to prevent penetration beyond the sheet metal for safe and precise cutting. It also features a replaceable pilot bit that helps to guide the cutter into the material for easier drilling and hole making.

Physical Characteristics

Type	Hole Cutter Kit
Shank Type	Hex
Shank Size (in)	3/8"
Hole Saw Size (in)	7/8", 1-1/8", 1-3/8", 2"
Material	Carbide Tipped

Packaging Details

Standard Qty	1
Price Per	1
Package Length	8.80
Package Width	12.00
Package Height	2.90
Package Weight	4.05
Net Weight	4.05

Performance Data

Maximum Cutting Depth	3/16" Sheet Metal, 1/8" Stainless Steel
Applications	Mild Steel, Stainless Steel, Iron, Copper, Brass Sheet Metal
Special Features	Packed in Molded Case, Replaceable Pilot Bit

Certifications

IGCC	2437
RoHS Compliant	Yes
