

# Product Specifications

## #12 x 3" Square Drive Flat Head Wood Screw

Part Number DDFW123  
Category Number 4025  
UPC 781002834939

Wood Screws are manufactured with an aggressive thread style that has a higher degree of grip strength when used on materials such as plywood, lumber and other woods. They are made with a countersunk head that provides a flush surface after installation. When working with wood screws, it is suggested that a pilot hole, slightly smaller than the diameter of the fastener, be used to prevent materials from splitting.

### Physical Characteristics

Type	Wood Screw
Drive Type	Square
Head Type	Flat
Thread Type	WSSL
Point Type	Gimlet
Size	#12 x 3"
Dia./Thread Size	#12
Head Diameter	0.438" - 0.389"
Length (in)	3"
Head Height	0.132"
Thread Pitch\Thread Per Inch	11
Driver Size	#3
Material	Carbon Steel
Finish	Zinc Plated

### Packaging Details

Standard Qty	100
Sleeve Qty	500
Master Qty	1000
Price Per	100
Package Length	12.40
Package Width	10.10
Package Height	6.00
Package Weight	2.40

### Performance Data

Special Features	Provides a Flush Surface, Aggressive Threads, High Degree of Grip Strength, Zinc Plated
Applications	Plywood, Lumber, and other Woods

### Certifications

RoHS Compliant	Yes
Meets/Exceeds	ASME B18.6.1
