

Product Specifications

9/16" x 54" Flex-A-Bit

Part Number FB9654
Category Number 6360
UPC 781002370307

Flex-A-Bits are used to drill in hard to reach areas within walls or small openings. They are manufactured with a flexible spring steel shaft and a permanently brazed self feeding point for work in cumbersome areas. They have a tapered back for easy retraction and a small hole in the tip for wire and cable pulling.

Physical Characteristics

Type	Flex A Bit
Bit Diameter (in)	9/16"
Overall Length (in)	54"
Material	Carbon Steel
Finish	Black Oxide

Packaging Details

Standard Qty	1
Master Qty	20
Price Per	1
Package Length	58.00
Package Width	3.00
Package Height	.40
Package Weight	.54
Net Weight	0.54

Performance Data

Applications	Wood Drilling Within Walls
