

1/4"-20 Brass Hex Nut

Part Number HNBR14
Category Number 4300
UPC 781002171355

Brass Hex Nuts are used to connect both metal and wood components. They are also used in conjunction with brass bolts, screws, studs, threaded rod and any other brass fastener that has machine screw threads. Brass will protect against tarnishing and corrosion.

Physical Characteristics

Type	Hex Nut
Nut Type	Hex
Thread Style	UNC
Thread Type	2B
Size	1/4"
Dia./Thread Size	1/4"-20
Fits Bolt Sizes	1/4"
Thread Pitch\Thread Per Inch	20
Material	Solid Brass

Packaging Details

Standard Qty	100
Sleeve Qty	500
Master Qty	4000
Price Per	100
Package Length	1.54
Package Width	2.92
Package Height	3.66
Package Weight	.85

Performance Data

Rockwell Hardness	HRF 55 min.
Special Features	Solid Brass, Corrosion Resistance, Prevents Against Tarnishing
Applications	Corrosive Environments, Marine Applications, General Purpose

Certifications

RoHS Compliant	Yes
Meets/Exceeds	ASTM F467
