

4" Cup & Die Set (3-1/2" Conduit)

Part Number HPS400
Category Number 6410
UPC 781002820321

The HPS series comes standard with both the Cup & Die set that is used in conjunction with the various punch tools offered by Dottie. They are manufactured with a 3 point design that eliminates the slug binding in the cup and are dual rated for steel and stainless steel. The set also comes with laser etched centering lines on the cups for easy alignment as well as size and part number identification on the cup and die. Their unique design requires 50% less torque than competing brands and are interchangeable with competing brands of tools.

Physical Characteristics

Type	Punch Tool Set
Size	4"
Material	High Speed Alloy Steel
Finish	Black Oxide

Packaging Details

Standard Qty	1
Price Per	1
Package Length	4.65
Package Width	4.57
