

# Product Specifications

## #10 Green Ribbed Tubular Anchor w/ Pan Head Combo Drive Screws

Part Number K6D  
Category Number 4610  
UPC 781002296003

The K6D Kit is suitable for use in solid and hollow wall, concrete, block, or brick applications. When used in hollow walls, such as drywall or plywood, the wings will splay out to provide a more secure installation and higher pull-out load. The anchor has a lip to prevent falling into deep holes or hollow walls. For hard wall applications, use the size of the anchor to determine hole size for installation. For drywall or soft applications it is recommended to use the smallest hole that will enable a tight fit of the anchor. These anchors are not recommended for use in overhead applications or where holding values are critical.

### Physical Characteristics

Bit	IB2P
Anchor Type	Tubular
Drive Type	Phillips/Slotted
Head Type	Pan
Screw Size	#10 x 1"
Bit Size	#2
Anchor Diameter	1/4"
Anchor Length	1"
Material	Polyethylene
Color	Red
Number of Pieces	201

### Performance Data

Pre-Drill Size	1/4"
Applications	Solid & Hollow Wall, Concrete, Block, Brick
Special Features	Tapered Body, Collar to Prevent Falling Through Base Material

### Packaging Details

Kit Contains	(100) Straight Anchors, (100) #10 x 1" Phillips/Slotted Sheet Metal Screws, (1) 1/4" Carbide Tipped Masonry Drill Bit
Standard Qty	1
Master Qty	10
Price Per	1
Package Length	7.50
Package Width	3.40
Package Height	1.50
Net Weight	1.105
Package Weight	1.11
Package Type	Two Compartment Box

### Certifications

RoHS Compliant	Yes
