

8-32 Machine Screw Anchor

Part Number MA2
Category Number 4520
UPC 781002299103

Machine Screw Anchors perform well in a variety of concrete strengths and can be used in brick, block or stone. They adapt well to hole size variations and can easily be removed, loosened and re-tightened, if necessary. Any screw head style can be used. To install the anchor, drill the appropriate hole size in the substrate and drop the anchor expander side down into the hole. Place setting tool over the anchor and hammer until set. These anchors are not recommended for use overhead or applications where holding values are critical.

Physical Characteristics

Install Tool	ST2
Anchor Type	Machine Screw Anchor
Screw/Bolt Size	#8-32
Anchor Diameter	5/16"
Material	Lead

Packaging Details

Standard Qty	100
Master Qty	1000
Price Per	100
Package Length	5.50
Package Width	4.10
Package Height	2.70
Net Weight	0.01
Package Weight	1.00

Performance Data

Pre-Drill Size	5/16"
Minimum Embedment Depth	1/2"
Applications	Brick, Concrete
Special Features	Easy Bolt Installation/Removal, Lip for Flush Installation

Certifications

RoHS Compliant	No
