

1/2"-13 x 1-1/4" Stainless Steel Hex Head Tap Bolt

Part Number MBS12114
Category Number 4010
UPC 781002698487

Stainless Steel Hex Head Tap Bolts are used in non-critical applications or where corrosion resistance is the primary concern. They are used to pull assemblies together and are manufactured with 304 stainless steel. It is recommended that Stainless Steel Hex Head Tap Bolts be used with stainless steel nuts and washers.

Physical Characteristics

Type	Tap Bolt
Head Type	Hex
Thread Style	Fully Threaded
Thread Type	2A
Point Type	Non-Pointed
Size	1/2" x 1-1/4"
Dia./Thread Size	1/2"-13
Head Size	3/4"
Length (in)	1-1/4"
Thread Pitch\Thread Per Inch	13
Material	18-8 Stainless Steel

Packaging Details

Standard Qty	50
Master Qty	500
Price Per	100
Package Length	5.60
Package Width	4.10
Package Height	2.70
Package Weight	4.95

Performance Data

Operating Enviroment	Corrosion Resistance
Tensile Strength (psi)	150000
Rockwell Hardness	HRB 95 - C32
Special Features	Fully Threaded, Corrosion Resistance
Applications	General Purpose, Non-Critical, Corrosive Environments

Certifications

RoHS Compliant	Yes
