

Product Specifications

1/2"-13 x 2" Stainless Steel Hex Head Tap Bolt

Part Number MBS122

Category Number 4010

UPC 781002698524

Stainless Steel Hex Head Tap Bolts are used in non-critical applications or where corrosion resistance is the primary concern. They are used to pull assemblies together and are manufactured with 304 stainless steel. It is recommended that Stainless Steel Hex Head Tap Bolts be used with stainless steel nuts and washers.

Physical Characteristics

| | |
|------------------------------|----------------------|
| Type | Tap Bolt |
| Head Type | Hex |
| Thread Style | Fully Threaded |
| Thread Type | 2A |
| Point Type | Non-Pointed |
| Size | 1/2" x 2" |
| Dia./Thread Size | 1/2"-13 |
| Head Size | 3/4" |
| Length (in) | 2" |
| Thread Pitch\Thread Per Inch | 13 |
| Material | 18-8 Stainless Steel |

Packaging Details

| | |
|----------------|------|
| Standard Qty | 50 |
| Master Qty | 500 |
| Price Per | 100 |
| Package Length | 6.20 |
| Package Width | 4.80 |
| Package Height | 2.80 |
| Package Weight | 6.96 |

Performance Data

| | |
|------------------------|---|
| Operating Environment | Corrosion Resistance |
| Tensile Strength (psi) | 150000 |
| Rockwell Hardness | HRB 95 - C32 |
| Special Features | Fully Threaded, Corrosion Resistance |
| Applications | General Purpose, Non-Critical, Corrosive Environments |

Certifications

| | |
|----------------|-----|
| RoHS Compliant | Yes |
