

#10 x 2" Phillips Flat Head Wood Screw

Part Number PHFW102
Category Number 4024
UPC 781002568582

Wood Screws are manufactured with an aggressive thread style that has a higher degree of grip strength when used on materials such as plywood, lumber and other woods. They are made with a countersunk head that provides a flush surface after installation. When working with wood screws, it is suggested that a pilot hole, slightly smaller than the diameter of the fastener, be used to prevent materials from splitting.

Physical Characteristics

Type	Wood Screw
Drive Type	Phillips
Head Type	Flat
Thread Type	WSSL
Point Type	Gimlet
Size	#10 x 2"
Dia./Thread Size	#10
Head Diameter	0.385" - 0.340"
Length (in)	2"
Head Height	0.116"
Thread Pitch\Thread Per Inch	13
Driver Size	#2
Material	Carbon Steel
Finish	Zinc Plated

Performance Data

Special Features	Provides a Flush Surface, Aggressive Threads, High Degree of Grip Strength, Zinc Plated, Corrosion Resistant
Applications	Plywood, Lumber, and other Woods

Packaging Details

Standard Qty	50
Sleeve Qty	250
Master Qty	2000
Price Per	100
Package Length	2.18
Package Width	2.92
Package Height	4.31
Package Weight	.76

Certifications

RoHS Compliant	Yes
