

#12 x 2-1/2" Phillips Flat Head Wood Screw

Part Number PHFW12212
Category Number 4024
UPC 781002569107

Wood Screws are manufactured with an aggressive thread style that has a higher degree of grip strength when used on materials such as plywood, lumber and other woods. They are made with a countersunk head that provides a flush surface after installation. When working with wood screws, it is suggested that a pilot hole, slightly smaller than the diameter of the fastener, be used to prevent materials from splitting.

Physical Characteristics

| | |
|------------------------------|-----------------|
| Type | Wood Screw |
| Drive Type | Phillips |
| Head Type | Flat |
| Thread Type | WSSL |
| Point Type | Gimlet |
| Size | #12 x 2-1/2" |
| Dia./Thread Size | #12 |
| Head Diameter | 0.438" - 0.389" |
| Length (in) | 2-1/2" |
| Head Height | 0.132" |
| Thread Pitch\Thread Per Inch | 11 |
| Driver Size | #3 |
| Material | Carbon Steel |
| Finish | Zinc Plated |

Packaging Details

| | |
|----------------|------|
| Standard Qty | 100 |
| Master Qty | 1000 |
| Price Per | 100 |
| Package Length | 5.50 |
| Package Width | 4.10 |
| Package Height | 2.70 |
| Package Weight | 1.94 |

Performance Data

| | |
|------------------|--|
| Special Features | Provides a Flush Surface, Aggressive Threads, High Degree of Grip Strength, Zinc Plated, Corrosion Resistant |
| Applications | Plywood, Lumber, and other Woods |

Certifications

| | |
|----------------|-----|
| RoHS Compliant | Yes |
