

#10 x 2-1/2" Phillips Flat Head Brass Wood Screw

Part Number PHFWB10212
Category Number 4290
UPC 781002383123

Brass Wood Screws are manufactured with an aggressive thread style that has a higher degree of grip strength when used on materials such as plywood, lumber and other woods. They are made with a countersunk head that provides a flush surface after installation and are manufactured from solid brass for corrosion resistance. When working with wood screws it is suggested that a pilot hole slightly smaller than the diameter of the fastener be used to prevent materials from splitting.

Physical Characteristics

Type	Wood Screw
Drive Type	Phillips
Head Type	Flat
Thread Type	WSSL
Point Type	Gimlet
Size	#10 x 2-1/2"
Dia./Thread Size	#10
Head Diameter	0.385" - 0.340"
Length (in)	2-1/2"
Head Height	0.116"
Thread Pitch\Thread Per Inch	13
Driver Size	#2
Material	Brass

Packaging Details

Standard Qty	100
Master Qty	1000
Price Per	100
Package Length	4.00
Package Width	3.00
Package Height	2.00
Package Weight	1.56

Performance Data

Special Features	Provides a Flush Surface, Aggressive Threads, High Degree of Grip Strength, Rust Resistant
Applications	Plywood, Lumber, and other Woods

Certifications

RoHS Compliant	Yes
Meets/Exceeds	ASME B18.6.1
