Duct Seal

Duct seal is used to seal around gaps and holes to prevent against dust, moisture and drafts. Common applications for use include electrical boxes, flashings and service masts. It is manufactured from a non-toxic, non-corrosive material that can easily be shaped by hand to any form.

Features:

- UL listed
- Non-corrosive
- Excellent resistance to water, alcohols, mild acids and bases
- Adheres to most clean surfaces
- Non-toxic / asbestos free

Product Dimensions

PN#	Size
LHD1	1 lb
LHD5	5 lbs

Performance Data

Property	Value	Test Method
Base	Non-drying synthetic polymers and oils	
Fillers	Saturated mineral fillers and other inert ingredients	
Flame Spread	5	
Smoke Developed	10	
Specific Gravity	1.65 to 1.7	ASTM D71-72
Cone Penetration	Load of 300 gm..5 sec. @ 25°F; 100 - 115 mm/10	ASTM D127-52T
Temperature Usage Range	Recommended	25°F to + 120°F
Temperature Tolerance Range	Will not slump at +275°F	-30°F to + 175°F
